

The Federal Communications Commission

Dear The Federal Communications Commission,

I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I feel concerned that this proposal would make my current service unaffordable.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers.

I use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that the commercial sector will pay less. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair! Thank you.

Sincerely, Robert and Joanna Franke 2530 29th Ave. W.  
Seattle, WA 98199-3324

Sincerely,

Joanna Franke
